

Press Release

Interturbine Aviation Logistics GmbH signs a support agreement with SuperJet International

Kaltenkirchen / Germany, February 2011

Interturbine Aviation Logistics GmbH has announced an agreement for the support of the new Sukhoi Superjet 100 (SSJ100) regional jets with SuperJet International, a joint venture between Alenia Aeronautica (Finmeccanica Company) and Sukhoi Holding.

With this agreement Interturbine Aviation Logistics becomes a supplier for the materials of the Sukhoi Superjet 100 and distributor of CES materials (consumables, expendables and standard hardware). The Sukhoi Superjet 100 operators and MROs will have access to Interturbine's worldwide service network.

All customers within Russia and the CIS countries will be served from the Russian Interturbine Company based in Moscow (Interturbine-RuSky). Customers from the Western world will be assisted and supplied by Interturbine's headquarters in Germany or the additional distribution centers, contact offices and points of contact in France, UK, Czech Republic, Hungary, USA, Canada, Brazil, United Arab Emirates, P.R. China, Japan, Singapore, Australia and South Africa. This ensures that all customers can be served and supplied by Interturbine staff in their language and time zone.

About SuperJet International:

SuperJet International, a joint venture between Alenia Aeronautica, a Finmeccanica Company (51%) and Sukhoi Holding (49%), is in charge of the marketing, sales, customization and delivery of the Sukhoi Superjet 100 regional jet in Europe, the Americas, Oceania, Africa and Japan. The Company is also responsible for training and worldwide aftersales support, as well as the design and development of VIP and cargo variants. A SuperJet International branch is active in Moscow, together with a sales office in Washington, DC, U.S.A.

The Sukhoi Superjet 100 Programme represents the most important industrial partnership between the Russian Federation and the rest of the world in the civil aviation sector.

About Interturbine Aviation Logistics:

Interturbine Aviation Logistics GmbH is recognized around the world as an approved supplier of standard hardware, raw and semi-finished materials, consumables, chemicals and composites to the aerospace industry, MROs and airlines, consolidating more than 500,000 part numbers from over 3,000 sources. Interturbine's innovative material service concept provides a ONE STOP SOURCE for immediate supply on call. Interturbine offers highest levels of service (including AOG support) in the distribution of production and maintenance materials to the aerospace industry, an excellent availability of materials in warehouses all over the world as well as dedicated and enthusiastic employees operating from strategically placed international facilities. The company has already been appointed for total fleet support by Airbus, ATR, Dornier, Embraer, Eurocopter and Pilatus.
